

## All-Purpose Cleaner

The "Universalreiniger" (all-purpose cleaner) does what his name says: he cleans practically everything. The capabilities are so manifold that this cleaner can replace a large number of different products.

The all-purpose cleaner cleans vehicles outside as well as inside. Wheel rims and engines become neat again, too. And that is only a small part of the application possibilities. It cleans floors, windows and machine tools. So it is suited for industrial production facilities, for workshops and for households.

The all-purpose cleaner contains neither phosphate nor silicate nor solvent. The ingredients are bio-degradable. It does his job also in high-pressure cleaners and sprayers. Due to the variable dosage it is very economical to use.

All-purpose cleaner is so powerful that you should not apply it undiluted. LIQUI MOLY recommends mixing with water according to the following ratios:

Cleaning of wheel rims	1 : 2 to 1 : 5
Copolymere-dewaxing	1 : 3 to 1 : 5
Cleaning of engines, engine compartments, car bodies, door edges, tarpaulins, and superstructures	1 : 5 to 1 : 10
Chemical pre-washing at car washes	1 : 5 to 1 : 10
Removing rests of insects	1 : 10
High-pressure and steam jet cleaner	1 : 10 to 1 : 20
Plastic car interior lining	1 : 10 to 1 : 20
Machine tools	1 : 10 to 1 : 40
Cleaning the interior of cars	1 : 10 to 1 : 50
Manual cleaning of floors and walls in workshops	1 : 20 to 1 : 40
Mechanical cleaning of road tunnels and reflector posts	1 : 40 to 1 : 60
Glas panes	1 : 500 to 1 : 2000
